INSTRUCTION SHEET

BASIC SWITCH PANEL WIRING HARNESS

QuickCar

- Ready to install.
- 5-foot length.
- Connects switch panel to starter.
- Accessory wires included.

NOTE: Disconnect battery before installing any wires to prevent injury/damage.

Route all wiring passing through any firewall/sheet metal with a protective grommet to prevent damage to the wires. For switch panels with lights, connect black wires to ground. It is common to use the bolts used for mounting the panel to do this.

*BEFORE PLUGGING HARNESS AND SWITCH PANEL TOGETHER, CONNECT ALL WIRES AS FOLLOWS:*

Yellow wire to starter post on solenoid.

Red wire to positive battery post on remote solenoid or starter.

Red wire w/ **Black stripe** to ignition switched +12V on ignition box, ECU, or HEI distributor.

White wire goes from the top of accessory switch to accessory (+12V).

*Due to different harness/switch panel options, ALL QuickCar switch panels and wiring harnesses are sold separately.

WHITE WIRE
FROM TOP OF ACCESSORY SWITCH TO ACCESSORY

RED WIRE
TO POSITIVE BATTERY POST

RED WIRE WITH BLACK STRIPE
TO IGNITION SWITCHED +12V ON IGNITION BOX, ECU, OR HEI DISTRIBUTOR
